Special Instructions:
INSTRUCTIONS

1. Place on door or bed area curtain of a person requiring Additional Precautions
   • This includes persons with symptoms, with or without laboratory confirmed infectious germ (organism)

2. Check all that apply
   Example #1: If person requires Droplet and Contact Precautions
   - Contact Precautions
   - Droplet Precautions
   - Airborne Precautions
   - Airborne Precautions for AGMPs until ___________ am/pm
   - on ______________ date

   Example #2a: if a person requires Enhanced Droplet Contact Precautions
   - Contact Precautions
   - Droplet Precautions
   - Airborne Precautions
   - Airborne Precautions for AGMPs until ___________ am/pm
   - on ______________ date

   Example #2b: Use this option for Airborne Precautions at all times (e.g. TB)
   - Contact Precautions
   - Droplet Precautions
   - Airborne Precautions
   - Airborne Precautions for AGMPs until ___________ am/pm
   - on ______________ date

3. Check this option with cases of Measles, Chicken Pox etc.
   See Microorganism Infectious Diseases Table for your area

4. When Airborne Precautions are required for Aerosol Generating Medical Procedures (AGMPs) only (e.g. Enhanced Droplet Contact), Airborne Precautions must be maintained for the duration of the procedure as well as room clearance time. If AGMP is ongoing, identify as “CONTINUOUS” on the time space

5. Use the Special Instructions section for other important Additional Precautions information (e.g.: Contact precautions can be discontinued 24hrs after initiation of treatment)

6. For more information on Additional Precautions and when to use them, refer to one or more of the following:
   - The specific Additional Precautions Protocol (e.g.: Contact Precautions, Droplet Contact Precautions etc)
   - The Specific Disease Protocol (if applicable)
   - The Clinical Presentation and Empiric Precautions Table
   - Microorganism, Infectious Disease Table
