Re: Call for Nurses with Experience in Critical Care or Occupational Health

As we prepare for the anticipated increase in patient demand for critical care beds due to a rise in COVID-19 activity, we are seeking interested RNs with Adult and Pediatric Critical Care experience who are willing to pick up additional shifts in ICUs in Winnipeg and Brandon.

Interested RNs with Adult or Pediatric Critical Care experience are asked to please contact your immediate supervisor or contact the central COVID-19 Recruitment Office at COVID19Recruitment@sharedhealthmb.ca.

As we continue to screen staff for return to work and prepare for the anticipated need to assist with contact tracing for staff we are also seeking occupational health nurses or RNs with experience or interest in overseeing the health, safety and wellness of our employees.

Interested RNs with experience in Occupational Health Nursing or with practice and experience in occupational health and safety are needed across the province. Please contact the central COVID-19 Recruitment Office at COVID19Recruitment@sharedhealthmb.ca.

Thank you for considering this request.
