**Process map for Covid suspect, Non intubated, Urgent/Emergent cases**

**SCREENING QUESTIONS for Awake and Communicating Emergency Patients***:

- Have you travelled out of the Province of Manitoba in the past 14 days?
- Have you been in contact with someone who has travelled out of the province in the past 14 days?
- Have you been advised to self-isolate by a medical professional?

  *If the answer is NO to all 3 questions, AND the patient has appropriate social distancing for 14 days, THEN the patient is NOT a COVID Suspect and should be treated with standard surgical practices*

---

**Non-Intubated COVID suspect for Emergency Non-Upper Aerodigestive Procedure**

- Patient to COVID Designated OR: Enhanced Droplet/Contact Precautions Surgical Mask

  *(IF APPROPRIATE)*

  Procedure setup to be completed prior to patient entry

---

**Time Out: Appropriate for limited staff during intubation?**

- YES

  **Anesthesia Team ONLY Present During Intubation:**
  - Enhanced Droplet/Contact Precautions N95 respirator

  **Procedure Continues:**
  - Enhanced Droplet/Contact Precautions Surgical Mask Until Extubation

- NO

  **Surgical Team Present During Intubation:**
  - Enhanced Droplet/Contact Precautions N95 respirator

  **Procedure Continues:**
  - Enhanced Droplet/Contact Precautions Surgical Mask Until Extubation

---

**After 30 min Delay**

- Surgical Team Enters: Enhanced Droplet/Contact Precautions Surgical Mask

- Anesthesia Team ONLY Present During Extubation:
  - Enhanced Droplet/Contact Precautions N95 respirator

---

**Procedure Setup to be Completed**

- Equipment Covered During Intubation Process to Avoid Contamination

---

**Screening Questions for Awake and Communicating Emergency Patients***:

- Have you travelled out of the Province of Manitoba in the past 14 days?
- Have you been in contact with someone who has travelled out of the province in the past 14 days?
- Have you been advised to self-isolate by a medical professional?

- **N95 respirators are only indicated during AGMPs**

---

**Enhanced Droplet/Contact Precautions**

- Gown
- Procedure or surgical mask/N95 respirator
- Face shield or safety glasses or goggles
- Gloves

---

**Staff wearing N95 respirators for AGMP are encouraged to continue wearing throughout until extubation complete to minimize PPE changes**

**Staff movements in/out of OR to kept to a minimum**

---

*for purposes of IP&C – patients from Nunavut and NW Ontario are considered Manitobans*
