

**COVID-19**  
**Designated Entrances – HSC**  
**(updated March 23, 2020)**

Effective Friday, March 20, the entrance at 707 McDermot Avenue is closed to the public from 7:30 p.m. to 7:30 a.m. Staff access at this entrance will be allowed outside of these hours.

Effective Monday, March 23, the entrance at 685 William Avenue (Community Services Building) will be closed.

Entry to our HSC campus HAS BEEN FURTHER REDUCED. All traffic, including staff and members of the public, will be directed to the following entrances:

- 700 William Avenue (main entrance, Children's and Adult Emergency)
- 820 Sherbrook Street
- Sherbrook Parkade (elevator to Orange Bison Zone)
- 665 William Avenue (HSC Women's Hospital)
- 771 Bannatyne Avenue (PsychHealth Centre)

LIMITED ACCESS WILL REMAIN FOR THE TIME BEING AT 707 McDERMOT AVENUE. All other entrances will remain closed. Signage will direct staff, patients and visitors to these designated entry points where they will be screened prior to entry.

The following will be restricted to STAFF ONLY:

- All office and support buildings
- Tunnel access from all parkades

**Remember to carry your ID badge at all times, and to make it clearly visible while on campus. Let's keep each other safe — be aware of your surroundings and diligent of individuals who may piggyback or tailgate staff into staff only areas. If this happens, make every effort to report this as quickly as safely possible to Security at 204-787-4567.**

### **Parking**

The Sherbrook, William and Women's Hospital parkades remain for patient use only. Staff with monthly parking passes can continue to park there. While patients can continue to park in the Emily and Tecumseh parkades, they will be encouraged to use the other parkades as these provide easier access to the designated entrances.

Staff are encouraged to park in the Rehab, Emily and Tecumseh parkades.

### **Screening at designated entry points**

Patients and visitors arriving at HSC will continue to be screened for symptoms and travel history by the triage and admitting staff.

Each designated entrance will have directional stanchions to create three streams:

1. Staff only — **Presentation of HSC ID badge is MANDATORY,**
2. Screening,
3. One way exit.

### **Visitors**

For all acute care facilities in Manitoba, visitor access is being immediately suspended.

Exceptions for compassionate reasons or end of life will continue to be made on a case-by-case basis but will adhere to vigilant screening.

At the discretion of individual facility managers, one (1) visitor may be permitted to the following areas following screening: Obstetrics, NICU, PICU, Emergency Departments, and CancerCare Manitoba will allow one person to accompany cancer patients. For pediatric patients, one (1) parent/guardian may visit at a time.

Remember to wash your hands often, and stay informed of updates and all recommended precautions at <https://sharedhealthmb.ca/health-providers/coronavirus-resources/>
