PROTOCOLS FOR HIP FRACTURE

*NOTE: Algorithm should NOT be extrapolated to inpatient ward. Staff should follow current direction for inpatient wards.

SCREENING QUESTIONS for Awake and Communicating Emergency Patients*:
- Have you travelled out of the Province of Manitoba in the past 14 days?
- Have you been in contact with someone who has travelled out of the province in the past 14 days?
- Have you been advised to self-isolate by a medical professional?
  - If the answer is NO to all 3 questions, **AND the patient has appropriate social distancing for 14 days, THEN the patient is NOT a COVID Suspect and should be treated with standard surgical practices**

EDCP OR AT OPERATIVE SITE
- **N95 respirators are only indicated during AGMPs**

*ALL COVID VIRAL STUDY + PATIENTS TRANSFERRED TO HSC or GRACE AFTER DISCUSSION WITH SECTION HEAD

* for purposes of IP&C – patients from Nunavut and NW Ontario are considered Manitobans
