COVID-19 Community Testing Locations

Asymptomatic Patients should **NOT** be sent for COVID-19 testing.

Patients may be referred directly from Health Links-Info Santé or from family physicians’ offices for assessment and testing for COVID-19 if they meet established screening criteria:

(NOTE: Screening criteria are intended to supplement clinical judgement, not supersede it)

Screen the following individuals with acute respiratory illness of any degree of severity who, within 14 days before the onset of illness, are:

- Symptomatic workers and volunteers in *essential services, including health-care workers and first responders. (*Essential services are those workplaces permitted to remained open during the shutdown of non-essential workplaces mandated by Public Health Orders);

- Symptomatic individuals who live or work in a remote or isolated community or congregate setting, such as a correctional facility, shelter, long-term care or residential facility, or a remote work camp;

- Symptomatic individuals living with a health-care worker, first responder, or worker in a congregate setting such as a correctional facility, shelter, long-term care or residential facility;

- Patients with respiratory (cold/flu) symptoms who have:
  - Had *exposure to a confirmed case of COVID-19 (*Exposure includes attendance at large group settings where someone has been confirmed to have COVID-19.); AND/OR
  - Travelled outside Manitoba, including travel within Canada, in the 14 days before onset of illness; AND/OR
  - Had lab exposure working with COVID-19 specimens.

AND

- Have signs/symptoms suggestive of coronavirus:
  - fever or chills
  - new cough or increase in the amount of coughing
