COVID-19 Community Testing Locations

Asymptomatic Patients should NOT be sent for COVID-19 testing.

Patients may be referred directly from Health Links-Info Santé or from family physicians’ offices for assessment and testing for COVID-19 if they meet established screening criteria:
(NOTE: Screening criteria are intended to supplement clinical judgement, not supersede it.)
Screen individuals with acute respiratory illness of any degree of severity who, within 14 days before the onset of illness, had any of the following exposures:

- Have returned from travel outside Manitoba, including travel within Canada; OR
- Who have had exposure* to a confirmed case of COVID-19 (Note: Providers are to confirm setting and how they were notified. *Exposure may include scenarios like large events or settings with confirmed case(s) of COVID-19.); OR
- Had laboratory exposure as a person who works directly with biological specimens known to contain COVID-19; OR
- Is a health-care worker; OR
- Lives or works in a remote or isolated community or congregate setting, such as a correctional facility, shelter, long-term care or residential facility, or a remote work camp.

AND
- Have signs/symptoms suggestive of coronavirus:
  - Cough
  - Fever
  - Sore throat
  - Runny nose
  - Weakness
  - Headache

The physician or nurse practitioner may refer patients directly for testing at one of the following locations:
