

COVID-19 Testing Site Volume Reporting

Updated March 22, 2020

All testing sites are requested to report the testing volume from their site either through an automated report or via email to the Provincial Information and Analytics Team: PIMA@gov.mb.ca

Numbers are required for the previous day by 0700 hrs for all days that testing is occurring (7 days/week if applicable).

This is an example of the current WRHA testing site report:

Mar 08, 2020					0
Mar 09, 2020					4
Mar 10, 2020					4
Mar 11, 2020					6
Mar 12, 2020					157
Mar 13, 2020					447
Mar 14, 2020					268
Mar 15, 2020					321
Mar 16, 2020					468
Mar 17, 2020					0
Total	657	266	506	246	1675

Sites that do not have an automated report in place yet please submit daily data on the excel template provided and send in an email to PIMA PIMA@gov.mb.ca

PIMA will collate all testing site data for the COVID-19 Incident Command Centre.

The volumes required to be reported are defined as: *The number of individuals who are swabbed*

Add any comments/ concerns to the template and/or notify the operations director of issues

PIMA will be working with Digital Health to create an automated report where ever this is possible.
