Algorithm for Managing Acute Care Visitors who present to points of Entry

(Note: Latest updates will appear in blue)

Maintain spatial separation (6 feet/2 meters). Instruct visitor to clean hands with alcohol based hand rub. Ask the following:

Do you have any of the following symptoms?

1. SIGNS AND SYMPTOM CRITERIA

<table>
<thead>
<tr>
<th>ONE symptom in Category A</th>
<th>TWO or more symptoms in Category B</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Fever &gt; 38 or subjective fever/chills</td>
<td></td>
</tr>
<tr>
<td>☐ cough</td>
<td></td>
</tr>
<tr>
<td>☐ sore throat/hoarse voice</td>
<td></td>
</tr>
<tr>
<td>☐ shortness of breath/breathing difficulty</td>
<td></td>
</tr>
<tr>
<td>☐ loss of taste or smell</td>
<td></td>
</tr>
<tr>
<td>☐ vomiting or diarrhea more than 24 hrs</td>
<td></td>
</tr>
<tr>
<td>☐ runny nose</td>
<td></td>
</tr>
<tr>
<td>☐ muscle aches</td>
<td></td>
</tr>
<tr>
<td>☐ fatigue</td>
<td></td>
</tr>
<tr>
<td>☐ conjunctivitis</td>
<td></td>
</tr>
<tr>
<td>☐ headache</td>
<td></td>
</tr>
<tr>
<td>☐ skin rash of unknown cause</td>
<td></td>
</tr>
<tr>
<td>☐ nausea or loss of appetite</td>
<td></td>
</tr>
<tr>
<td>☐ poor feeding (in an infant)</td>
<td></td>
</tr>
</tbody>
</table>

For any Category A symptoms or 2 or more Category B symptoms, politely ask person to leave and return after their symptoms have been resolved for 72 hours. Suggest to symptomatic person that they be tested for COVID-19 and advise them to check the provincial website for testing information.

For only 1 Category B symptom, politely ask the person to leave, avoid contact with others and re-evaluate after 24 hours.

2. HISTORY CRITERIA

In the past 14 days have you been directed to self-isolate?
☐ Yes – politely ask the person to leave and return once they have reached the end of their 14-day isolation period
☐ No

3. TRAVEL HISTORY OUTSIDE OF CANADA

Have you traveled outside of Canada in the last 14 days?
☐ Yes – Go to question 3.a.
☐ No – Go to question 4

3.a. TRANSPORT WORKER OR ESSENTIAL TRAVELLER

Are you a transport worker or essential traveller?
☐ Yes – Contact site supervisor/manager responsible to assess situation specific details.
☐ No – politely ask the person to leave and return once they have reached the end of their 14-day isolation period.

4. TRAVEL HISTORY IN CANADA

Have you traveled outside of Manitoba in the last 14 days?
☐ Yes – are you fully vaccinated and has it been at least 2 weeks since your last dose? If not fully vaccinated, politely ask the person to leave and return once they have reached the end of their 14-day isolation period. Fully vaccinated visitors that provide proof of vaccination status and Essential Care Partners may proceed.
☐ No

5. REASON FOR VISIT

☐ Essential Care Partner
☐ General Visitor – please provide evidence of vaccination status to determine if visit is allowed to proceed

6. VACCINATION STATUS

Are you fully vaccinated? Both doses (any combination) of an approved two dose COVID-19 vaccine (AstraZeneca, Pfizer, Moderna), OR a single dose of an approved single dose COVID-19 vaccine (Janssen/Johnson & Johnson) with your second dose (or approved single dose) received more than 14 days ago?
☐ Yes – please provide the required documentation. Once provided, general visitors can visit in the patient’s room
☐ No – If Essential Care Partner - provide the required documentation. Once provided, general visitation may proceed

If NOT an essential Care Partner – politely inform the person that only fully vaccinated General Visitors may visit at this time and ask them to return once fully vaccinated.

Yes to Questions 1-3 and no to 3.a. No visit allowed. Politely ask the person to leave. If visitor is upset, please involve site leader/designate.

No to Questions 1-4 and yes to Essential Care Partner Person may enter as an essential care partner.

No to Questions 1-4, yes to General Visitors and yes to vaccination status Person may enter as a general visitor if proof of vaccination is provided upon entrance.

If no to Questions 1-4, yes to General visitors and no to vaccination status No visit allowed. Politely ask the person to leave. If visitor is upset, please involve site leader/designate.

Provide general visitor medical mask to wear and essential care partner with a medical mask.

Note: this is not intended for staff screening
Change log:
