

DISINFECTING SHARED DEVICES

How is it done?

- Perform hand hygiene
- Put device in Ziploc bag
- When no longer required, wipe down Ziploc bag with Accel Intervention wipe
- Allow 1 minute contact time
- Remove electronic device from bag and discard bag

Electronic Device:

- Squeeze extra liquid from wipes before cleaning and disinfection
- Wipe surfaces with an Accel wipe
- Allow surfaces to stay wet for 1 minute for INTERvention and 3 minutes for PREvention wipes
- Dry with a cloth

**Thank you
for protecting
patients**
