### Long COVID / Post COVID-19 Condition

#### Services Available Without a Prescriber Referral

- **Area of Concern:** Nutrition
  - **What the Service Offers:** Dial-a-Dietitian connects callers to a registered dietitian to answer questions and provide easy-to-use advice on food and nutrition.
  - **How to Access:** Dial-a-Dietitian 204-788-8428 or Toll free 1-877-830-2892

- **Area of Concern:** Multiple persistent symptoms
  - **What the Service Offers:** Easy Street is a unique rehabilitation program for clients who have had a life-impacting health change such as a stroke, an acquired brain injury or COVID-19. The client-centered approach assists clients to identify their personal goals and practice the skills needed to return to independent living.
  - **How to Access:** Misericordia Health Centre

- **Area of Concern:** Mental Health
  - **What the Service Offers:** Klinik Crisis lines are open to people of all ages, genders and backgrounds. You do not have to be in crisis or suicidal to call. Calling the Crisis Lines can be a good place to start when trying to sort out a problem. They can also refer you to other services or programs.
  - **Counselling services:**
    - Employee Assistance Program through extended health benefits, where available
    - Services available in English and French - upon request in Cree, Ojibway, and Inuktut
  - **How to Access:** Klinik Crisis Support Call 204-786-8686 or 1-888-322-3019

---

**Note:** Fee-for-services charges may apply. Contact your healthcare insurance provider for coverage information if applicable.
## Long COVID / Post COVID-19 Condition

### Services Available Without a Prescriber

**Referral Fee-For-Service**

- The resource table below lists fee-for-service providers that have identified Long COVID services. Some fee-for-service costs may be covered by health benefits. Contact your health insurance provider for information about coverage.
- As services for Long COVID continue to be developed, there may be more resources available than listed here. If you are looking for programs or services by a specific provider near you, refer to the private practice directories for occupational therapists, physiotherapists, and clinical psychologists.

These resources have been identified as supporting people with symptoms of Long COVID. Shared Health and Winnipeg Regional Health Authority do not recommend one service provider over another. Refer to the private practice directory if you are interested in finding out about any Long COVID programming or related clinical care available from a specific physiotherapy, occupational therapy, or clinical psychology practice.

Please contact Brandy Stadnyk at bstadnyk@wrha.mb.ca if you are aware of other Long COVID programs or would like your Long COVID services to be included in this resource.
