

## Continuous quality improvement

Here are some tips for strong data practices that can support continuous quality improvement (CQI) activities in your practice:

### 1. Set up routine internal monitoring to measure and track key quality indicators:

To learn about an option for monitoring, watch the videos listed below to learn more about Manitoba Primary Care Quality Indicators (PCQIs) and the Primary Care Data Extract (PCDE).

### 2. Compare your performance against standards and other data available to your practice:

Home Clinics will soon be receiving a quarterly "Primary Care Report for Home Clinics" from Manitoba Health, Seniors and Active Living providing information on PCQIs and a provincial summary of Home Clinic data.

### 3. Identify key areas to improve in your practice:

Answering questions like "What are we trying to accomplish?" and "What changes can we make that will lead to an improvement?" can help guide discussion and planning.

### 4. Work on small quality improvement projects to improve your practice in these areas:

The Plan-Do-Study-Act Model of Improvement is an effective method to support CQI activities.

For support, contact the PCIS Office at Manitoba eHealth.

## New videos added to the EMR Video Library

### Primary Care Data Extract: Leveraging Primary Care Quality Indicators in Manitoba

This video provides an introduction to Manitoba's Primary Care Quality Indicators and how they support measurement of prevention, screening and management of chronic conditions. Learn about the importance of data quality including some EMR tips and tricks to help you leverage PCQIs in support of quality patient care. [Click here to view.](#)

### Primary Care Quality Indicators: Supporting quality patient care in Manitoba

Learn about the Primary Care Data Extract (PCDE) and the benefits to submitting on a regular basis. This video covers key data elements, the importance of EMR data quality, and how a Manitoba Certified EMR can support efficient collection and submission of a robust PCDE to maximize value for Home Clinics. ## Don't get left behind What you need to know about EMR Certification

Co-hosted by:  
MCFP, Manitoba eHealth and  
the Primary Health Care Branch

The Manitoba College of Family Physicians boardroom,  
240-1695 Henderson Hwy, Wpg

Are you considering a move from paper charts to an EMR?  
Are you transitioning to a new EMR?  
Should you be selecting a Manitoba Certified EMR?

**If you are asking these questions, then come and join us at this information session.**

The first half of the session will involve an overview of the certification levels, benefits to physicians and what things to consider when making important decisions about a new EMR. The second half of the session will be an open Q&A format with MCFP, Manitoba eHealth and the Primary Health Care branch available to participate in the dialogue and answer your specific questions or concerns.

Three (3) sessions are available to maximize your opportunity to participate:

<i>Date</i>	<i>Time</i>	<i>Format</i>	<i>Registration link</i>
Tuesday, Aug. 14	7 – 8 p.m.	In person only	<a href="https://www.surveymonkey.com/r/EMR_AUG14">https://www.surveymonkey.com/r/EMR_AUG14</a>
Tuesday, Aug. 28	7 – 8 p.m.	Webinar only	<a href="https://www.surveymonkey.com/r/EMR_AUG28">https://www.surveymonkey.com/r/EMR_AUG28</a>
Wednesday, Sept. 12	7 – 8 p.m.	In person only	<a href="https://www.surveymonkey.com/r/EMR_SEPT12">https://www.surveymonkey.com/r/EMR_SEPT12</a>

*\*Dinner will be served at 6:30 p.m. for in-person sessions*
